September 2, 2005

Dear Pamela,

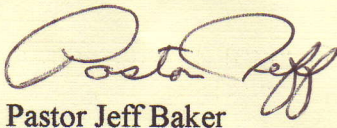

What awesome services we had when you ministered in our church. Melissa Jackson was among those who were healed in the healing line. Deaf in one ear and not able to hear certain frequencies in the other ear since childhood, Melissa had never even heard her father's voice before. Two days after she was prayed for she was startled when she visited in her parent's home and heard her father speaking from the other room. She has been able to testify to "Other adjustments" she has had to make since her hearing has returned. She is now able to participate in church services since she can hear.

LeeAnna had been tormented for years with her heart racing and severe headaches. She had been in Children's hospital on different occasions but the doctors had not been able to diagnose or treat her problems. When you encouraged my daughter, Kayla, to lay hands on her LeeAnna was healed. She no longer has a sad countenance when she comes to church. She now has a radiance on her face after God ministered to her.

Your sweet and submissive spirit toward the leadership of the church is refreshing. Your genuine love for the congregation while you ministered to them warmed our hearts.

I feel privileged to recommend your ministry to other pastors and churches. I know they will be blessed like we were.

Sincerely,

Pastor Jeff Baker
